Clean • Educate • Protect

Gloves

In times where exceptional hygiene is required such as outbreaks of Coronavirus, gloves are a potential barrier to contamination. Remember do not touch your face whilst wearing gloves. Use gloves only when needed – if you're not touching anything then there is no need for gloves to be on and allow your hands to naturally air dry regularly. If you do wear gloves you still need to wash hands, we recommend good hand hygiene is to wash your hands on a regular basis for 20 seconds.

Latex Free to reduce risk of allergic reactions • Flexible material for fit and feel • Protects against contamination • Available in sizes from Small to Extra Large • Different Colours Available • Packed in boxes of 100

All products supplied by CK Consumables are subject to availability from our manufacturing partners. In these unprecedented times of a global pandemic - pack size, packaging material and or product may be subject to changes. CK Consumables will only ever offer products of a like for like alternative.

Alcohol Gel

All of our gel products contain a minimum 60% alcohol. Anything below this number is less effective. The key to hand hygiene is to wash your hands for 20 seconds regularly. Alcohol gel is an interim measure when hand washing facilities are not available.

Many studies have shown that hand sanitiser containing a higher concentration of alcohol are more effective than those that contain a lower alcohol concentration or non-alcoholic one. Furthermore, studies have also shown that alcohol-based hand sanitiser reduces many flu like contagious diseases and infections. Our hand sanitisers are available now and are delivered from our UK based warehouse.

Social Distancing Signage

Social Distancing is at the top of almost everybody's mind at the moment as we face this current pandemic. These unique floor graphics offer a highly effective tactic for directing and instructing people on a site to help comply with the Coronavirus Covid-19 regulations. Ideal for premises such as golf clubs.

Made from hardwearing non slip self-adhesive materials, these signs are easy to apply to most surfaces including carpet, wood, concrete and vinyl.

Providing High Quality Cleaning Supplies for Industry

CK Consumables Limited are a long term partner and proud sponsor of the PGA. We can provide members with long term support in cleaning and hygiene requirements and are here to help managers meet the requirements of Health & Safety and Social Distancing.

CK Consumables Limited have put in place a best practice process that all PGA members can adopt during the current climate.

Our recommendations include:

Washing your hands on a regular basis for 20 seconds.

Using Alcohol gel on a regular basis when hand washing facilities are not available.

Wearing a mask and gloves at appropriate times when social distancing is difficult to adhere to.

Regular cleaning of touch points and surfaces with wipes throughout the day.

For any hygiene questions you may have – please contact your trusted PGA partner CK Consumables or visit our website **www.ckconsumables.co.uk**
