

THE PROFESSIONAL GOLFERS' ASSOCIATION 2001 RETIREMENT AND DEATH BENEFITS SCHEME ("THE SCHEME")

ANNUAL GOVERNANCE STATEMENT FOR YEAR ENDING 31 DECEMBER 2020

PREPARED IN ACCORDANCE WITH REGULATION 23 OF THE OCCUPATIONAL PENSION SCHEMES (SCHEME ADMINISTRATION) REGULATIONS 1996 (THE "REGULATIONS")

1. Annual statement regarding governance

1.1 Under legislation set out in regulation 23 of The Occupational Pension Schemes (Scheme Administration) Regulations 1996 as amended by The Occupational Pension Schemes (Charges and Governance) Regulations 2015, the Trustees of the Professional Golfers' Association 2001 Retirement and Death Benefit Scheme (the 'Scheme') are pleased to present this statement (the 'Statement') on governance for inclusion in the Trustees' annual report.

2. This document sets out the Statement covering the year to 31 December 2020.

2.1 This Statement will be published on a publicly available website and the information with regards to cost disclosures will be signposted in the annual benefit statements.

3. Default Investment Arrangement

3.1 A Statement of Investment Principles, prepared in accordance with regulation 2A of the Occupational Pension Schemes (Investment) Regulations 2005, is attached. This incorporates details of the default investment option and the other fund options available to members. The objectives in relation to the investments, including the default, are as follows:

1. To make available a range of investment funds that is expected to enable members to select an investment strategy that meets their own individual needs and preferences.
2. Offer access to lifestyle strategies which facilitate diversification and are expected to achieve long term capital growth.
3. Offer funds and lifestyle strategies that enable members to reduce investment risk in the run-up to retirement.
4. Offer funds which mitigate the impact of sudden and sustained reductions in capital values or rises in the cost of providing benefits at retirement (cash, annuity purchase or drawdown).
5. To provide a default investment option for members until they make their own investment decisions.

3.2 The last formal investment review, including a review of the default investment option, took place in November 2018. As of April 2019, the Trustees took the decision to change the default investment option for the Scheme and consolidate the fund range offered to the members in order to focus member choice and encourage engagement.

3.3 A number of enhancements were agreed to both the default arrangement and the self-select fund range. In particular, the Trustees decided to replace the default option lifestyle, which targeted the purchase of an annuity at retirement, with the Aviva My Future 'Target Cash Lump Sum' Option. The change was supported by analysis undertaken in a comprehensive investment strategy review, which included analysis of the membership. The new option also offers greater diversification in the growth phase, with a reduction in exposure to equity markets, and a more appropriate asset allocation, for most members, at retirement. The Trustees are comfortable that the default option is consistent with the objectives stated in the Statement of Investment Principles. There has been no material changes to the membership during the year and therefore the Trustees are of the view that no changes were required.

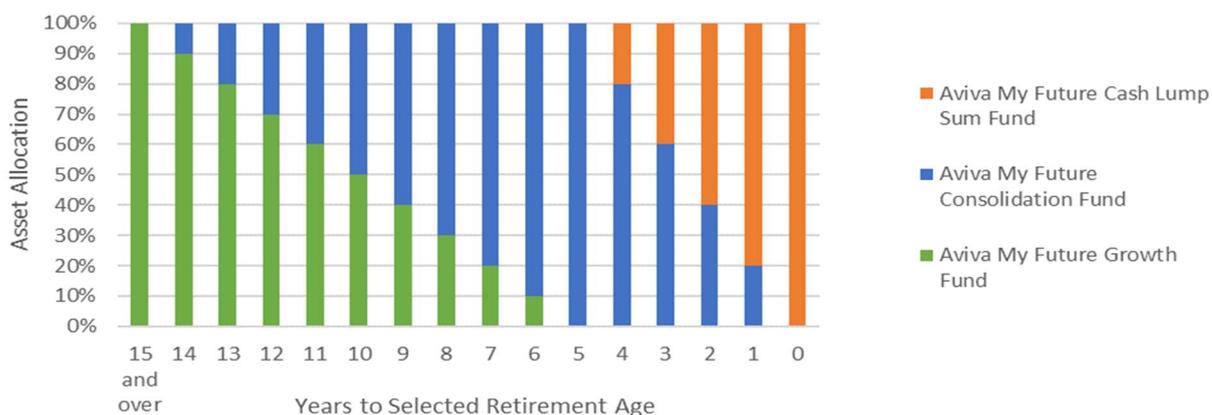

3.4 In addition, the Trustees have established a more focused range of funds for members, as detailed below:

- My Future 'Target Cash Lump Sum' Option;
- My Future 'Target Annuity' Option;
- My Future 'Target Drawdown' Option;
- Aviva Pension BlackRock (50:50) Global Equity Index Tracker Fund;
- Aviva Pension BlackRock UK Equity Index Tracker Fund;
- Aviva Pension Managed Fund;
- Aviva Pension Stewardship Managed Fund;
- Aviva Pension Property Fund;
- Aviva Pension BlackRock Over 15 Year Corporate Bond Index Tracker Fund;
- Aviva Pension Pre Retirement Fixed Interest Fund;
- Aviva Pension BlackRock Over 5 Year Index-Linked Gilt Index Tracker Fund;
- Aviva Pension Cash Fund.
- Aviva FP With Profits Fund (NGP Pre Demutualisation)
- Aviva FP With Profits Fund (NGP Series 1)
- Aviva FP With Profits Fund (NGP Series 3)

The With-Profits Funds are closed to new investment but included for monitoring purposes as members still have legacy assets held in them.

3.5 The new default lifestyle strategy has a Total Expense Ratio (TER) of 0.65% p.a., which is below the charge cap of 0.75% p.a. These member charges do not include transaction costs, which are discussed in more detail in section 4.4. The Trustees assessed the competitiveness of the charge level as part of the investment strategy review and in the annual value for members' assessment and are satisfied that the charging level is appropriate, given the characteristics of the Scheme.

3.6 The new default investment option is structured as follows:

4. Core Financial Transactions

- 4.1 As required by regulation 24 of the Regulations, the Trustees must ensure that core financial transactions are processed promptly and accurately, this includes:
- Investment of contributions paid to the Scheme;
- 4.2 - Transfers of members' assets into and out of the Scheme;
- 4.3 - Transfers of members' assets between different investment options available in the Scheme; and
- 4.4 - Payments from the Scheme to, or in respect of, members.
- 4.5 The requirements of regulations have been met and core financial transactions have been processed promptly and accurately.
- The Trustees have appointed a professional third party administrator, which is Aviva.
 - Service levels from Aviva are monitored by the Trustees and a report is received annually by the Trustees from Aviva. For this year, the report received was slightly different from what it was on previous years. There was a change in the volume of demands received by Aviva by more than 50%, which is quite significant. The top three demands this year by volume of service were customer amendments, with c.75% of demands completed within 5 days; leaver process, with c.50% being completed within 30 days and general admin, with 50% being completed within 5 days. No complaints were received by Aviva from members. The Trustees continues to challenge Aviva in relation to any concerns during the year and this remains an ongoing discussion at Trustees' meetings with a granular review undertaken at the Q4 Trustees' meeting where Aviva presented their governance report.
 - Over the year period, customers have continued to positively vocalise their appreciation of interacting with Aviva. There were 3 scores that reflects data gathered from issuing SMS messages to customers. The results of this research were a 66.8 Net Promotor Score; 89.1% Customer Satisfaction Score and a 86.8% First Point Resolution Score. All of which have reflected improvements.
 - The Trustees discuss cases of retirement and transfers regularly at Trustees' meetings to ensure cases are progressed on time and any barriers are overcome.
 - There are close working links between internal Finance, Human Resources and Payroll teams as well as the Trustees' advisers, Mercer, and Aviva in order to respond to the member queries when they are raised.
 - The Trustees consider individual cases at each Trustees' meeting to verify that leavers and retirement requests have been processed promptly and accurately. Cases where this has not occurred have been limited and have been highlighted by the Trustees. The Trustees seek to verify where members are requesting transfers to ensure, as far as possible, that they are not victims of pension scam activity.
 - The Trustees have also verified that appropriate disaster recovery plans are in place with Aviva.
 - The Trustees also appoint an independent auditor to carry out an annual audit of the Scheme, including the core financial transactions that have taken place during the Scheme year.
- 4.6 The Trustees have noted and documented the delay and oversight by Aviva in relation to the closure of investment fund choices to members, which resulted in two members being invested in funds that are not part of the agreed range at the year end. The Trustees' advisers have highlighted this with Aviva and have sought to understand the events that took place that contributed to the error. An explanation has been

provided in relation to when the amended range was reflected on Aviva's system. The Trustees have taken action to insure corrective action and have sought assurances that any financial impact from the error will be made good by Aviva. Members were not adversely impacted by this but it did delay the completion of the project.

5. Charges and Transaction Costs

5.1 As required by regulation 25 of the Regulations, the Trustees are required to report on the charges and transaction costs for the investments used in the default and non-default arrangements and their assessment of the extent to which the charges and costs represent good value for members.

6. **We note that while transaction costs and charges are an important consideration, they are not the only criteria the Trustees assess. A number of other qualitative and quantitative factors are also considered in a holistic manner when making strategic decisions in relation to investment strategy with good outcomes for members being the ultimate goal for the Scheme.**

6.1 The charges (represented by the Total Expense Ratio "TER") applicable to the default arrangements during the period are 0.65% p.a. The charge cap introduced by regulations, of 0.75% p.a., applies solely to the default investment option, and is adhered to by the Scheme's default option. Under the new fund range, all funds have a member charge of 0.65% p.a.

6.2 Details of the funds as at 31 December 2020 that are component parts of the default options and other prominent funds and the associated charges are shown in the table overleaf:

Fund	Annual Management Charge (p.a.)	Total Expense Ratio (p.a.)	£ as at 31 Dec 2020 (£,000s)
Aviva BlackRock (50:50) Global Equity Index Tracker	0.65%	0.65%	13.5
Aviva Blackrock Over 15 Year Corporate Bond Index Tracker	0.65%	0.65%	38.8
Aviva FP With Profits Fund (NGP Pre Demutualisation)	0.65%	0.65%	40.3
Aviva FP With Profits Fund (NGP Series 1)	0.65%	0.65%	1,266.0
Aviva FP With Profits Fund (NGP Series 3)	0.65%	0.65%	8.3
Aviva Blackrock Over 5 Year Index Linked Gilt Index Tracker	0.65%	0.65%	0.2
Aviva Managed	0.65%	0.65%	30.6
Aviva My Future Cash Lump Sum	0.65%	0.65%	73.2
Aviva My Future Consolidation	0.65%	0.65%	485.3
Aviva My Future Growth	0.65%	0.65%	2,162.6
Aviva Stewardship Managed	0.65%	0.65%	112.1

Source: Aviva as at 31 December 2020.

6.3 In addition to investment management charges and the additional fund expenses included in the TER, investment funds are subject to other implicit costs, such as the investment manager's expenses associated with trading a fund's underlying securities, including commissions and stamp duty. These expenses are not explicitly deducted from the fund but are captured by a reduction in investment returns.

6.4 The Financial Conduct Authority has provided guidance (PS17/20) to investment managers regarding calculations and disclosures of transaction costs which comply with the updated Regulations. The Trustees have requested this information from the underlying fund managers, through the Scheme's investment provider where applicable. The Trustees have made this information accessible to members on a publicly available website and the link to this website is include on member statements.

Illustrative examples of the cumulative effects over time of the relevant costs and charges on the value of members' benefits, as well as details on the aggregate transaction costs incurred by each fund, can be found below to meet compliance with the legislation.

6.5 Charges and Transaction Cost Illustrations

Using the charges and transaction cost data provided by the relevant parties and in accordance with regulation 23(1)(ca) of the Regulations, as inserted by the 2018 Regulations, the Trustees have prepared an illustration detailing the impact of the costs and charges typically paid by a member of the Scheme on their retirement savings pot. The statutory guidance has been considered when providing these examples.

The illustrations that follow take into account the following elements:

- An assumed starting pot size of zero;
- Contributions, where applicable;
- Real terms investment return gross of costs and charges;
- Adjustment for the effect of costs and charges; and
- Time.

How we worked out the figures in the tables

It's important to understand how much or how little difference charges make to your pension pot, but we can't predict exactly what will happen in the future so we've had to make some assumptions. The values shown are estimates and are not guaranteed.

These assumptions are:

1. We've assumed someone doesn't have anything in their pension pot when they start saving. Contributions are assumed to be paid £100 monthly increasing in line with assumed earnings inflation of 2.5% each year.
2. The figures illustrate the pension pot value in 'today's money' which means they take inflation into account by discounting values at 2.5% a year. Seeing the figures in this way shows you what they could be worth today. It's important to note that inflation reduces the worth of all savings and investments. The effect of this is shown in the illustration and could mean the fund may reduce as well as grow in 'today's money'.
3. Transaction costs may not have been included where data was not available from the fund managers.

Source: Aviva, as at 31 December 2020

Some important things to remember

Your scheme will offer other funds to those illustrated, with different growth potential and different charges, and may also offer some form of lifestyling investment approach. If you have selected the lifestyling investment approach your pension pot will automatically be moved into different funds as you approach your retirement date and your scheme literature will provide details of how this works. As the individual funds used in a lifestyling approach have different growth potential and different charges, the overall growth rate and overall charge will change over time.

For these reasons, we have shown a range of funds with a range of charges which are available to you and which could apply to your pension pot during the life of your plan. A personal projection of your pension pot is included in your annual benefit statement and you should read that to get an individual view of your projected pension benefits. You'll also find details of the actual charges applicable to you in your scheme literature.

The figures shown here:

- Shouldn't be used to make investment decisions, so if you need to do that, we recommend that you take financial advice.
- May not be relevant to your personal circumstances. Your money may be invested in different funds, for example.

Aggregate transaction costs

The next table shows the aggregate transaction costs based upon the information supplied by Aviva. Transaction costs below represent averages of the 3 year costs as at 31 December 2018, 31 December 2019 and 31 December 2020, considering the years for which data was provided.

** Required underlying data is not available for the 3 years so data for maximum available period used.

6.6 The Trustees fully support transparency of costs for members. We also reiterate that while costs and charges are an important consideration, they are not the only criteria the Trustees assess. A variety of factors are typically considered in a holistic manner when making strategic decisions in the best interests of the Scheme's members.

7. Value for Money

7.1 The Trustees have assessed the extent to which the charges and transaction costs set out above represent good value for members. This view is underpinned by a formal value for members' assessment, carried out with the assistance of the Scheme's advisers for the year ending 31 December 2020. This assessment covered the following aspects:

- Investment charges for the funds within the default option (this included benchmarking against comparable funds in each asset class based on peer group data provided by the Scheme's investment advisors, Mercer Limited).
- A review of transaction costs and charges where available.
- An assessment of the historic returns of the default investment option relative to their respective objectives and the impact on member outcomes.
- An assessment of each fund's manager research and rating (as provided by the Scheme's investment advisors, Mercer Limited).
- A review of the other features that are paid for by the employer and deliver good value for members. Other features and services that strengthen the Scheme's value proposition include but are not limited to efficient administration services and Trustees oversight.

7.2 The Trustees are therefore of the view that the Scheme currently provides good value for its members overall. The members benefit from a number of services that are paid for by the Employer and the Trustees have sought improvements in service from Aviva.

7.3 The Trustees hold four Trustees' meetings each year to effectively govern over the Scheme and the costs for these meetings, including any adviser fees, are borne by the Company. The governance at these meetings has considered the services provided by Aviva on administration and the Trustees have taken action to highlight matters within Aviva and seek assurance that areas where some service has been below expectations won't recur.

8. Trustee Knowledge and Understanding

8.1 In accordance with sections 247 and 248 of the Pensions Act 2004, the Trustees are required to maintain an appropriate level of knowledge and understanding which, together with professional advice which is available to them, enables them to properly exercise their functions and duties in relation to the Scheme.

Trustees training is of high importance to the good running of the Scheme. The Trustees acknowledge how vital it is that they maintain their knowledge of pension law, trust law, investment principles and are conversant with the Scheme documentation including the Trust Deed and Rules, SIP and Scheme Policies.

For new Trustees, when they are appointed, they are given an initial introduction by the HR team and are required to undertake and complete The Pensions Regulator's Trustee Toolkit course within six months of taking up the position. Attendance at Trustees' meeting during this time also support them to build knowledge and understanding of specific issues to the Scheme.

8.2 Training

In order to maintain this level of knowledge, the Trustees have procedures and policies in place to ensure that the Trustees take personal responsibility for keeping up to date with relevant developments:

- Trustees undertake training to ensure that they keep up to date with changes in legislation, current issues and the latest developments relating to DC schemes;
- Trustees note the importance of logging any training that the Trustees have undertaken;
- Training for the full board is provided during quarterly meetings and Trustees attend external Trustee training courses when appropriate, which are logged at Trustees' meetings.

8.3 Over the course of last year, the Trustees have demonstrated their continuous commitment to learning by undertaking the following training:

- 28 February 2020 – further training and consideration of sections 4-6 of the DC Code of Practice, including how the Scheme was set relative to the Code
- 28 February 2020 – training on the security of member assets and the policies that are in place with Aviva as the provider
- 9 December 2020 – training on the ongoing consultation for schemes of less than £100m is size and the potential changes to the governance requirements from October 2021.

8.4 Examples Demonstrating TKU

The Trustees undertook a number of activities over the past year which demonstrates how they have a working knowledge of pension and trust law and funding and investment principles. These activities include:

- The rules within the Trust Deed have been applied in relation to member transfer requests.
- The production of the implementation statement for the Scheme documents demonstrates how the Trustees have implemented the policies with the Statement of Investment Principles.
- Provider Engagement Toolkit was assessed at the Q2 meeting and could be sent to members.
- Update in terms of Pension Freedoms has been given on Q4 meeting.

8.5 Utilising Advisors

The Trustees believe that the best run Schemes utilise the combined skill and knowledge of both the Trustees and their professional advisors. The relevant skills and experience of those advisors are key criteria when evaluating advisor performance and selecting new advisors. Additionally, the following measures have applied during the period:

- The Trustees' professional advisors attend their formal meetings;
- The Trustees receive briefings from their advisors on all legislative and regulatory developments at each meeting.

8.6 Assessing Effectiveness

The Trustees understand that having knowledge on the Board and professional advice available needs to be used effectively in order for the Trustees to act properly. The Trustees have arrangements for ensuring the individual Trustees take responsibility for keeping up to date with relevant developments. Trustees take individual responsibility and have completed the relevant model from the Regulator's toolkit. All Trustees who have been in place for longer than six months as at the year-end have completed the relevant modules from the toolkit.

Taking account of actions taken individually and as a Trustee body and the professional advice available to them, the Trustees consider they are able to exercise their function as Trustees appropriately, having the required knowledge and skills.

I confirm that the above statement has been produced by the Trustees to the best of their knowledge.
